

I consent to serve as a subject in the research investigation entitled

.....

The nature and general purpose of the research procedure and the known risks involved have

been explained to me by.....The

researcher is authorised to proceed on the understanding that I may terminate my service as a

subject at any time I so desire.

I understand that it is not possible to identify all potential risks in this research and I believe that

reasonable safeguards have been taken to minimise both the known and potentially unknown

risks.
